Journey to Mosaic Squared (j2m²)

"J2m² opened my eyes in a way I could have never imagined possible, it gave a whole new perspective on justice according to God's heart. During my j2m² experience God worked with me and changed my heart completely. I understand now that I was blessed to bless others and it has been a blessing!"

— Sandra Santiago, j2m² 08 ▶

"The j2m² provides a safe space for young men and women to discover the personal healing that God promises as we expand ourselves to usher in His Kingdom on Earth. The j2m² showed me that the Body of Christ cannot be unified until we can fully acknowledge the darker parts of our church history. Put another way: We cannot heal the wounds of our past without first exploring their magnitude and causes. More than anything, I came to understand that I should not pray for the healing of the sick, or for racial righteousness, or for a stop to hunger and suffering, without also doing everything in my power to do something about these issues." — Brandon Sammut, j2m² 08 Facilitator ▶

It's been two years since I went through j2m², and I still think of the people that I met in the course of that month. I don't know how God is ultimately going to use those experiences in my life, but I do know that I have not forgotten the people that I met in Oakland, San Francisco, and Plainview, and I am trusting that He will always soften my heart so that whatever plans He may have for me, in Him I will be ready."

— Katie Williamson, j2m² 06 ▶
